PROFESSIONAL SUMMARY

Product Developer with 4+ years of experience building enterprise-grade applications in the financial domain. Skilled in **C/C++ programming** with a solid foundation in **data structures and algorithms**, complemented by expertise in SQL/RDBMS integration, Linux automation, and debugging. Adept at delivering optimized solutions in Agile environments with hands-on experience in Git, API validation, and AI-assisted development.

EXPERIENCE

Product Developer, EdgeVerve Systems Ltd – Hyderabad *Oct 2022 – Present*

- Developed and optimized enterprise features for **Finacle**, applying efficient **data structures and algorithms** to improve performance.
- Strengthened backend workflows by integrating **SQL/RDBMS** queries for data integrity.
- Automated deployment processes in **Linux** using **Bash scripting**, reducing manual effort.
- Conducted **root-cause analysis** and implemented patches for production issues.
- Leveraged **GitHub Copilot** to accelerate coding while maintaining quality standards.
- Collaborated in Agile delivery cycles, managing stories and updates in **Jira**.
- Validated APIs with **Postman** and performed end-to-end testing of RESTful services.

EDUCATION

- **B.Tech – Electrical Engineering**, VSSUT, Odisha (2017 – 2021)
- **Intermediate – Vikash Residential School**, Odisha (2014 – 2016)

ACADEMIC PROJECTS

- Optimal tuning of Fuzzy PID for DC motor speed control using Salp Swarm Algorithm.
- Design & analysis of controllers for DC motor speed control.

CERTIFICATIONS

- The Complete SQL Bootcamp: Go from Zero to Hero – Udemy

SKILLS

- **C** (Memory management, pointers, Algorithmic problem-solving)
- Strong grasp of **data structures & algorithms** for performance-oriented solutions
- SQL, RDBMS
- Linux, Bash scripting, Shell automation
- Git, Postman (REST API), Jira, GitHub Copilot
- JavaScript, XML
- Debugging & Root-Cause Analysis, Agile Framework
- Strong foundation in applied mathematics for algorithm design and optimization
